

Supporting At-risk researchers with Fellowships in Europe 2026 Seminar

Date: 10th-11th June 2026

Location: Inalco, 65 rue des Grands Moulins, 75013 Paris, France

This seminar focuses on exploring current European policies and trends on supporting researchers at risk, offering practical opportunities for networking and sharing updates about the SAFE project. It's a forum for researchers and host institutions involved in the SAFE project to exchange good practice, experience and ideas, to identify ways of supporting researchers at risk and to enhance their future career prospects. This seminar will also be the opportunity to advocate for strengthening Europe's position as a safe place for researchers at risk.

June 10th
